City of Wentzville Celebrated as St. Louis Post-Dispatch 2023 Top Workplace

[Wentzville, MO — June 27, 2023] The City of Wentzville has once again claimed a prestigious spot on the renowned St. Louis Post-Dispatch 2023 Top Workplace list. This monumental achievement is a testament to the unparalleled enthusiasm and unwavering commitment exhibited by the City's exceptional workforce.

The Top Workplace list, curated by Energage, exclusively relies on feedback from employees through an independent survey. This comprehensive assessment delves into the core aspects of workplace culture, encompassing vital elements such as compensation, benefits, management and visionary leadership, among others.

“Our incredible City employees are the driving force behind the City of Wentzville's success. Their unwavering dedication, remarkable talent and continuous innovation have brought us to the prestigious Top Workplace recognition once again,” stated City Administrator Douglas Lee. “We extend our gratitude to the Mayor and Board of Aldermen for their invaluable support and advocacy. Together, we will continue to strive to deliver exceptional service to the residents, businesses and other stakeholders we serve.”

To earn a place on this illustrious list, organizations had to attain top scores locally while meeting national benchmarks. For 2023, 2,704 organizations were invited to survey their employees. Based on employee survey feedback, only 179 organizations earned recognition as a Top Workplace. Eighty-six percent of the City's employees took part in the survey, offering invaluable insights and perspectives. The St. Louis Post-Dispatch celebrated this achievement by dedicating a special section in the June 25 Sunday edition, providing a tribute to the remarkable success stories of the honored workplaces.

The City of Wentzville's success in securing its place on the St. Louis Post-Dispatch 2023 Top Workplace list signifies the embodiment of the Board of Aldermen's critical success factors — namely fostering exceptional City service. With this remarkable achievement, the City of Wentzville reaffirms its position as a trailblazer in fostering an exceptional workplace culture that empowers and values its employees, setting a shining example for organizations in the St. Louis region and beyond.
